

Nurse Preceptor Information

Members of the San Diego Education Nursing Consortium would like to provide schools and industry with resources for preceptor education. Currently there are three options for preceptor education on this site.

California Nurse Practice Act (2008)

1424. Administration and Organization of the Nursing Program (i) When non-faculty individuals participate in the instruction and supervision of students obtaining clinical experience, their responsibilities shall be described in writing and kept on file by the nursing program.

1. **[RHORC Preceptor Educational Curriculum](#)**. This folder contains three sections:

- Preceptor Model Curriculum Objectives
- Preceptor Workbook
- Preceptor Powerpoint

This course has been designed for a traditional lecture/group interaction educational format but a single user can still have a educational learning experience form this program. It is very informative and anyone desiring to learn about precepting students in a detailed manner – this is the site for you! There is *not* a post-test associated with this course as yet, therefore no CE's are available. It is hoped that a post-test and CE's will be made available in the near future.

2. **[www.4 Faculty.org](#)**. This is a web site that provides online modules for learning about nursing education, teaching nursing and precepting. The modules are excellent with many resources. The directions to the site and log on information has been provided. Please login under *Southwestern College as an adjunct* faculty if you do not work at a college. You can print a report that says how many of the modules you have completed and how many hours for each one. No CE's provide at this time.

3. **Southwestern College.** This is a preceptor education module developed by SWC faculty and provides 5 CE's upon completion of the post-test. **First**, read the information letter explaining how to complete the '*Nursing Preceptor Continuing Education Module*'. **Secondly**, complete the Preceptor Module and follow directions from the SWC information letter on how to submit documentation and receive the CE certificate.

Provider approved by the California Board of Registered Nursing, Provider Number 15021 for 5contact hours.

**We welcome other preceptor education information for this site.
